

.... MAY IT PLEASE YOU
(aromatic bouquet well woven in words)

We are celebrating Annual Gathering and 61st (SkeÀ<e<per) / All India Conference on 29th and 30th Dec. 2008. On this very happy and joyful occasion *we take the opportunity to felicitate you on completing 80 years of peaceful life.*

Ageing community in the recent past is being looked upon with dignity and honour. Global Ageing Associations are making efforts to take care of emotional and physical health of senior citizens and equally tap their potentials for the well being of the society. This increasing awareness is a healthy sign for senior citizens to live meaningful life.

Life of human being is uncertain, but this uncertainty alone makes life worth living and enjoyable.

To look back on one's life is a very interesting pastime and equally so is the self dialouge (mJemebJeeo). You will wonder how you have surmounted all difficult periods amidst smile and tears. Young by heart and mind, although aged. *You have crossed 80 years of age and have led the life with full vigor, vitality and fullness, not by mere existence.*

With the changing environment it is difficult to keep pace with life but your positive approach will make you successful in leading future life peacefully.

We wish you a very long, happy and healthy life.

As a token of our affection and regard, we give you this bouquet well woven in words.

Jeevet Sharadah Shatam
